

DEFEND DC PUBLIC EDUCATION Resource One Pager

This resource sheet is intended to help school leaders protect the students, educators, and families who make up their school community. The incoming federal administration is unapologetically hostile and predatory towards our undocumented + immigrant students and families; our LGBTQ+ (particularly trans) educators and students; our educators who commit to Teach Truth; and our criminalized and vulnerable youth.

This resource sheet compiles relevant information to protect the school members threatened by this administration.
